PERGE AND HISTORIC ANTALYA TOUR

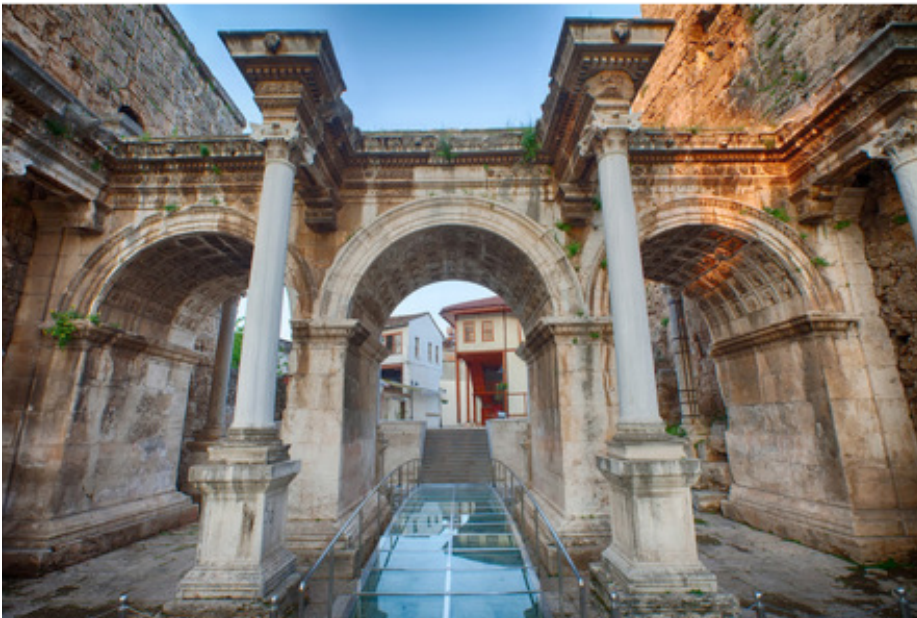

WEDNESDAY 25 MARCH 2020

Perge is a Hellenistic site, thought to be founded by colonists from the Trojan wars. Paul and Barnabas arrived here on Paul's first journey in AD 48 (Acts 13:13), passing through it again on their return (Acts 14:25).

At the site you will see the impressive theatre and stadium and also the unusual Hellenistic era gate with two round towers. Various other features of note are to be seen in this extensive site.

Visit ancient ruins within the city of **Antalya**, including remains of the ancient walls and Hadrian's Gate, a triumphal arch to commemorate the Emperor Hadrian's visit in AD130. Nearby is the Hıdırlık Kulesi and the ancient harbour from where Paul and Barnabas set sail (Acts 14:25).
